Directions

1. Introduce students to collages and explain how they are visual art made from assembling different forms to create a new whole.

2. Give each student a Styrofoam® head, scissors, foam brush, some of the Mod Podge® medium, and paper.

3. Students can use remnant paper, magazines, catalogues, or newspapers to cut out shapes, designs, words, or objects.

4. Students should experiment and plan where they want to attach and layer the cutouts to their Styrofoam® head.

- 5.** To start the collage, apply some of the Mod Podge® medium directly onto the Styrofoam® head, then apply the desired cutout. Brush on more of the Mod Podge® medium on top of the cutout to make sure it will stay in the desired position.

- 6.** Continue applying and layering the paper cutouts until the collage is complete.

- 7.** When the collage is finished, coat the entire head with another full coat of the Mod Podge® medium.

- 8.** Let collage dry completely.
